

Job Opportunities

Wireless Internet Support Technician

Job Description: Wireless Support Technician needed. Position requires network experience with TCP/IP, WiFi, and Linux. Additional experience with web programming would be helpful. \$10-12.00/Hour to start. Full Benefits package including medical, dental, stock options, and paid vacation time available after successfully completing a 90-day probationary period.

Wireless Internet Installation Technician

Job Description:

We are accepting applications for a full-time Field Installation Technician. The Boise, Idaho based NomadISP is the largest wireless service provider for the camping and recreational industry with installations all over the country. The company continues to enjoy an intense growth rate and has an immediate need to expand their installation force.

This is a Full-time position with a competitive salary, complete compensation package which includes Medical, Dental, and paid vacation benefits.

The position involves extensive (Company provided) travel nation-wide. Valid driver's license and clean driving record required. The work involves lifting and carrying heavy equipment, climbing ladders and walking on roofs. Job requirements also include installation and testing of NomadISP WiFi equipment with a high emphasis on quality and detail. May include running cat5 cable, configuring network devices, mounting and provisioning satellite dishes, conducting signal level surveys and interfacing with customers. Must be well organized, have high attention to detail and be able to work independently. Must be able to quickly learn proper Wireless Internet installation techniques and standards. Satellite and WiFi experience a plus.

NomadISP is an Equal Opportunity Employer.
